## **QuickBooks Program Authorization.** QuickBooks Desktop Editions (Pro, Premier, Enterprise)

QuickBooks requires that all programs be authorized by the Admin user prior to the program being able to connect to QuickBooks. The following is based on our Shopping Cart Integrator but applies to all our programs.

Upon starting the program when it attempts to connect to QuickBooks, QuickBooks to display the following screens. Sometimes Windows does not put the window on top of the others so it may be hidden.

For QuickBooks (Desktop) 2005 and later

The normal is *Yes, whenever the QuickBooks company file is open*. If you requirement is for the program to access QuickBooks without a user to be logged in then click on Yes, always, allow access even if QuickBooks is not running.

If the program needs to access credit card or social security numbers then also check *Allow this application to access personal data such as Social Security Numbers and customer credit card information.* 

Access can be removed by the QuickBooks Admin user via Edit, Preferences, Integrator Applications.
